

(Note: A draft of Chapter 1 was included with the outline below)

CONTENTS

Contributors

I. Introduction

1. Grasslands, Konza Prairie and Long-Term Ecological Research
Alan K. Knapp and Timothy R. Seastedt

II. Physical Environment

2. Regional Climate and the Distribution of Tallgrass Prairie
Bruce P. Hayden
3. Geomorphology of the Konza Prairie
Charles G. (Jack) Oviatt
4. Soils and Soil Biota
Michel D. Ransom, Charles W. Rice, Timothy C. Todd and William A. Wehmueller

III. Terrestrial Populations and Communities

5. The Flora of Konza Prairie: A Historical Review and Contemporary Patterns
Craig C. Freeman
6. Plant Populations: Patterns and Processes
David C. Hartnett and Philip A. Fay
7. Diversity of Terrestrial Macrofauna
Donald W. Kaufman, Philip A. Fay, Glennis A. Kaufman and John L. Zimmerman
8. Animal Populations and Communities
Donald W. Kaufman, Glennis A. Kaufman, Philip A. Fay, John L. Zimmerman and Edward W. Evans
9. Disturbance, Diversity and Species Interactions in Tallgrass Prairie
Scott L. Collins and Ernest M. Steinauer

IV. Hydrology and Aquatic Ecology

10. Hydrology and Aquatic Chemistry
Lawrence J. Gray, Gwendolyn L. Macpherson, James K. Koelliker and Walter K. Dodds
11. Structure and Dynamics of Aquatic Communities

Lawrence J. Gray and Walter K. Dodds

V. Ecosystem and Landscape-Level Analysis

12. Patterns and Controls of Aboveground Net Primary Production in Tallgrass Prairie
Alan K. Knapp, John M. Briggs, John M. Blair and Clarence L. Turner
13. Terrestrial Nutrient Cycling in Tallgrass Prairie
John M. Blair, Timothy R. Seastedt, Charles W. Rice and Rosemary A. Ramundo
14. Belowground Biology and Processes
Charles W. Rice, Timothy C. Todd, John M. Blair, Timothy R. Seastedt, Rosemary A. Ramundo and Gail W.T. Wilson
15. A Landscape Perspective of Patterns and Processes in Tallgrass Prairie
John M. Briggs, M. Duane Nellis, Clarence L. Turner, Geoffrey M. Henebry and Haiping Su

VI. Toward the Future

16. Climate Change, Elevated CO₂ and Predictive Modeling: Past and Future Climate Change Scenarios for the Tallgrass Prairie
Timothy R. Seastedt, Bruce P. Hayden, Clenton E. Owensby and Alan K. Knapp
17. The Dynamic Tallgrass Prairie: Synthesis and Research Opportunities
Scott L. Collins, Alan K. Knapp, David C. Hartnett and John M. Briggs
