

Ecosystem response to amplified landscape connectivity in the McMurdo Dry Valleys, Antarctica

Streams connect for 2-3 mo/yr,

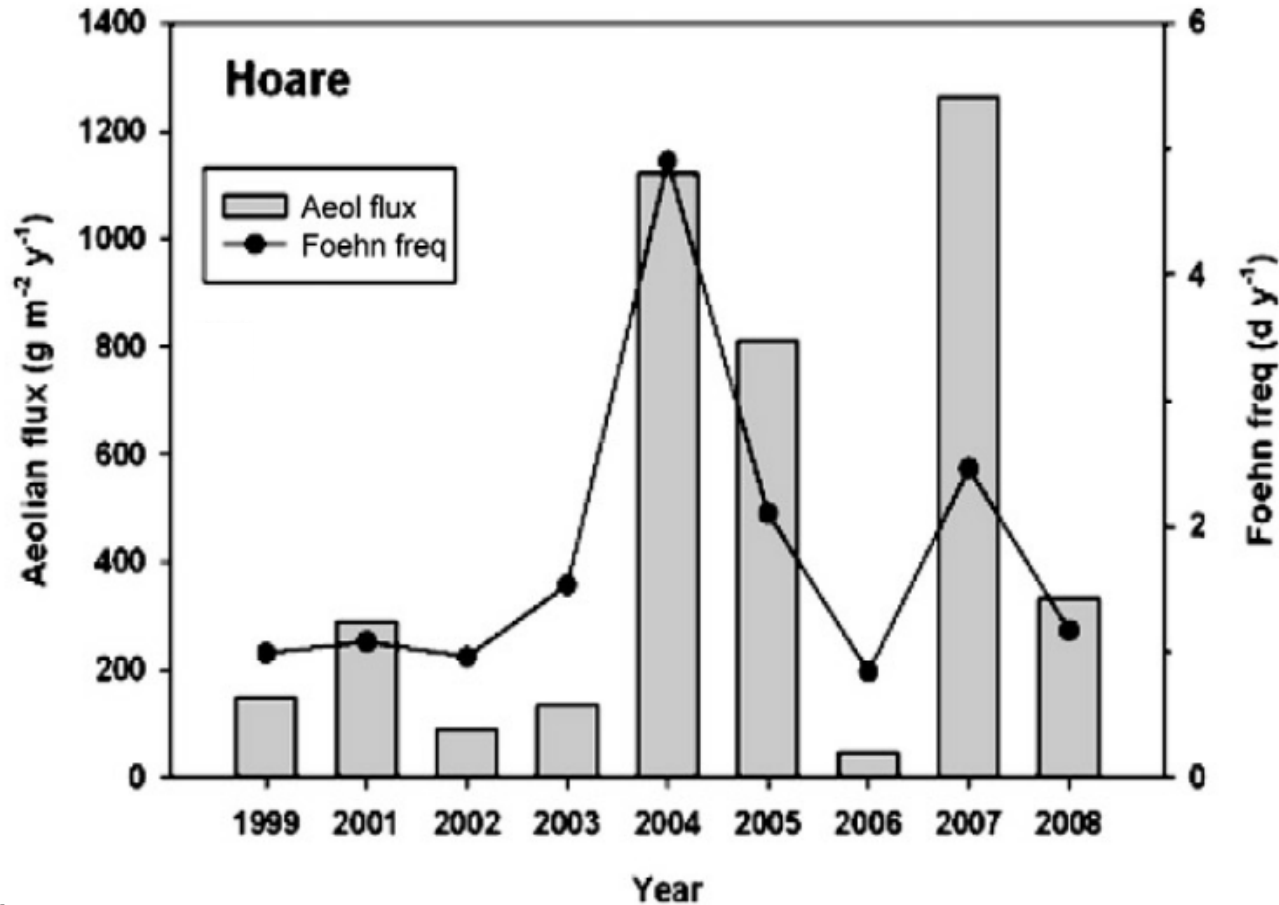

Gooseff et al., 2017 *Nature Ecol. & Evol.*

Streams connect for 2-3 mo/yr,

Gooseff et al., 2017 *Nature Ecol. & Evol.*

Wind connects landscape for 12 mo/yr

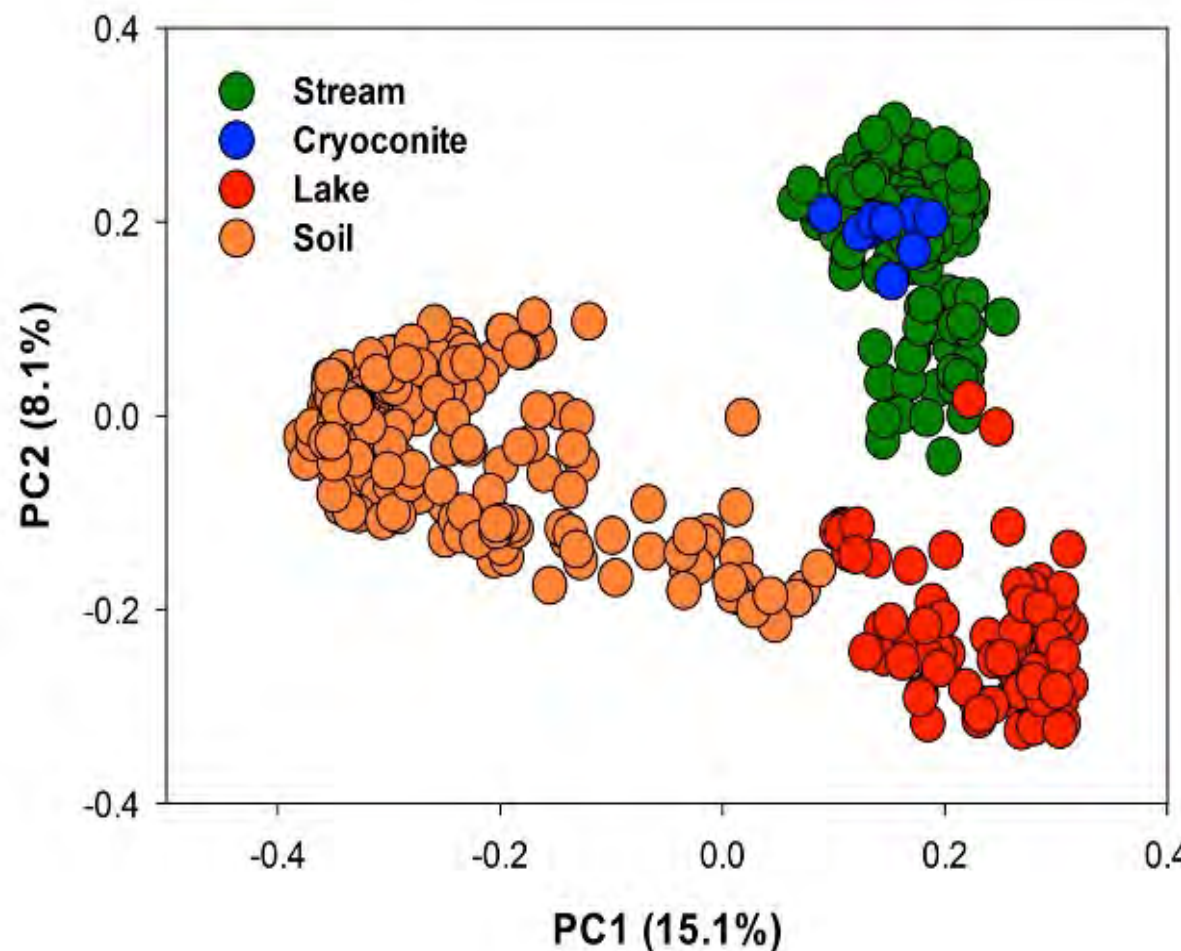

Šabacká et al., 2012 *Geomorphology*

Wind connects landscape for 12 mo/yr

Despite connectivity, habitat rules

So, to what extent does connectivity matter in your ecosystem?
